EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kirk Ekena (Reg. No. 56,672) on 24 May 2005.

The application has been amended as follows:

In the claims:

10. (Currently amended) The process of claim 9-8 wherein the 3-membered ring system is selected from the group consisting of aziridines, oxiranes, cyclopropyls, and episulfides.

The following is an examiner's statement of reasons for allowance:

Rejection of claims 1, 3-5 and 7-16 under 35 U.S.C. 112, first paragraph, as lacking enablement for the full scope of the claimed subject matter is withdrawn.

In view of the fact that the claims are not limited to therapeutic application and showings in the specification demonstrating that the method can be used to produce an antibody in a laboratory animal and track uptake and expression of nucleic acids *in vivo*, the skilled artisan would know how to use the claimed invention for a substantial number of *in vivo* applications. In addition to providing antibodies for research application, the process would also be useful for

developing transfection reagents for *in vivo* use and for determining the biodistribution of nucleic acids conjugated to antibodies, ligands and other molecules.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
